MAD MONKEY **EXPERIENCE DATABASE**

GM quick guide

Every tour, event and transfer your hostel runs, in one place. Sign in at **mm-costing-tool.vercel.app** with your work email and your password.

Add a new event MOST USED

1. Open **Experiences** in the left menu and press **Add product** at the top right.
2. **Title:** the name guests see, like *Beer Pong* or *Sunset Hour*.
3. **Category: Nightly Events** for anything the hostel runs itself. Use **MM Tours**, **3rd Party Tours** or **Transport** for the rest.
4. **Rate:** the price per person. Type **0** if it's free. You can enter it in your local currency or in USD.
5. **Brief description:** one short line, 95 characters at most. It goes on the website word for word.
6. **Days it runs:** tap each day it happens, then set the **Start** and **Finish** time.
7. **Extras if you have them:** long description, meeting point and time, inclusions, things to bring, guest numbers, and a photo album link with at least 6 photos.
8. **Starts as: Active** if it's running now, **Paused** if it's ready but not running yet.
9. **One-off event** (Halloween, Tequila Day)? Turn on **One-time event** and pick the date. It disappears on its own after that day.
10. Only turn on **Bookable on the Mad Monkey website** if guests can book it online.
11. Press **Add product**. If something important is missing, it tells you what before saving.

Change an event

- Open it from **Experiences**, change what you need, then press **Save**.
- Then press **Mark verified** to show it's been checked. Every save clears the old check.
- **Stopping an event:** set its Status to **Paused**, or switch off **Active** in the list. Nothing is ever deleted.

Or just ask the Assistant

- Click **Assistant** at the bottom of the left menu and type in plain words: *"Move pub quiz to Tuesday at 8pm"*.
- It shows you the change first. **Nothing changes until you press Confirm**.
- Ask it questions too: *"What's on tonight?"* or *"What runs on Saturday?"*

Events from head office

- When head office launches an event for every hostel, it shows at the top of **Experiences**.
- **Accept** adds it as it is. **Edit** lets you change the price or time for your hostel first. **Decline** if you're not running it.

My week and the weekly story

- **My week** shows what's on each day, in time order.
- Tick **Key** on up to 3 events a day. They stay key every week until you untick them.
- Press **Weekly story** for an Instagram story of your key events. Type changes like *"Remove Tuesday's quiz"*, then **Download story (PNG)**.

Also handy

- **More than one hostel?** Switch between them with the hostel dropdown at the top left.
- **Transport:** your transfers and buses, with routes, times and prices.
- **Activity:** who changed what, and when.
- **Export** on the Experiences page downloads your hostel's list as a spreadsheet.

Need help?

Changed something that's sold on the website? Let Reden know, as the website is updated separately.
